Subject: Tech Support

Bryan, I'd like you to meet Brian. ;-)

Brian Bowman is the head of tech here at Bloomington Graduation School. We just got in our 30 new iPads that I mentioned to you, and now maybe we are ready for some IU help! Per Brian Bowman's request, I am putting you, Bryan Hoey, in direct contact with him. Boy, this email is confusing!

Bryan Hoey, I don't have your professional email, so you may want to add it in or start a new thread, and we can use that email instead. Thanks for continuing to ask about this. It still stands that much of the staff (including myself) feels overwhelmed with other day-to-day meetings and obligations, so I don't know how many teachers will participate, but I am sure that many of us could use the support and we could all learn a thing or two!

Thanks!

Emily Frazier

Bryan, it would be great to get a chance to talk with you about iPad use at BGS. We now have an iPad for nearly every student (or will have soon). I think that 3 of our teachers use them. We don't really have any technophobes, but as Emily wrote, we are definitely spread thin.

Looking forward to talking with you.

Brian Bowman
